Fused silica transmission grating technology offers unbeatable energy/power damage threshold combined with high-efficiency spectral performance.

As femtosecond laser systems advance to ever increasing energy levels, demands to the energy/power handling capabilities of pulse compression gratings increase. Ibsen manufactures 100% fused silica pulse compression gratings that offer unbeatable energy/power handling capacity, combined with high-efficiency, low wavefront distortion performance.

Pulse compression gratings from Ibsen build on Ibsen’s world leading position in fused silica transmission gratings, utilizing state-of-the-art interferometric patterning technologies and advanced reactive ion etching technology. Gratings are manufactured on custom/OEM basis, but an increasing number of gratings are stock available, such as the grating described in this product sheet.

Pulse Compression Grating

1250 l/mm for 800 nm

PCG-1250-800-991
1250 l/mm for 800 nm

PCG-1250-800-991

Parameter | Specification
---|---
Material | Fused silica and high-power, dielectric AR coating materials
Grating area | 30 mm x 15 mm
Substrate size | 31 mm x 25 mm x 1 mm
Grating resolution | 1250 l/mm
Grating period | 800.0 nm +/- 0.1 nm
Dispersion at 800 nm | 0.083 deg/nm
Nominal wavelength | 800 nm
Angle of incidence (AOI) | Littrow (30 deg)
Diffraction efficiency at 800 nm | >93%
Diffraction efficiency at 730 & 892 nm (TE) | >85%
Back-side AR coating | High power, dielectric AR coating applied
Production technology | 2-beam Interferometry and Reactive Ion Etch, Class 10 cleanroom environment
Energy/power damage threshold | http://ibsen.com/products/transmission-gratings/high-power-gratings

Typical Grating Performance

1250 l/mm for 730-892 nm
1250 l/mm for 800 nm
PCG-1250-800-991

The above grating is an example of Ibsen's capabilities. Ibsen operates as grating partner for our customers, from being an integrated part of the grating and device / instrument design phase, to the manufacturing of prototypes, to volume manufacturing of OEM gratings.
