

Notice of Discontinuation - DISB-101			 Ibsen p h o t o n i c s
Document Type:	Notice of discontinuation	Revision: 1	Approved: 2024-11-0531

Product Discontinuation/End of Support Life Notice

Dear valued customer,

Ibsen Photonics is committed to providing innovative and reliable products, and supporting them as long as possible. However, it occasionally becomes necessary to discontinue a product and offer a suitable replacement.

With this letter we want to inform you that our **DISB-101 electronics board** will be discontinued by the end of March 2025.

Last Time Order Date: On April 1st 2025, DISB-101 will be discontinued and orders no longer accepted.

End of Life Date: On April 1st 2025, the product will reach the end of its support life. After this date, Ibsen Photonics can no longer guarantee software support, availability of spare parts and repair services for the DISB-101. The EOL applies to DISB-101 with the following part number:

P/N 80-128-719

Replacement product: Ibsen Photonics recommends the new DISB-101T board that works with the Hamamatsu CMOS S11639N-01 detector. You can read more about the DISB-101T electronics and its advantages here: <https://ibsen.com/products/oem-spectrometers/spectrometer-electronics/>

If you have any questions you are encouraged to contact Ibsen Photonics or your sales representative for more details.

Best regards

Bjarke Rose
